

Software Requirements Specification (SRS)

Project Title

WorkforceIQ™ – Employee Growth & Performance Intelligence Platform

Version

1.0

Project Type

Full Stack Web Application

Duration

12–16 Weeks

Team Size

6–10 Interns

1. Introduction

1.1 Purpose

WorkforceIQ™ is an internal employee growth and workforce intelligence platform designed to monitor employee learning, skill development, assessment performance, productivity, goals, and career progression.

The platform provides management with real-time visibility into workforce capabilities while enabling employees to track their own growth, learning achievements, and performance improvements.

2. Objectives

- Track employee learning progress
 - Monitor assessment performance
 - Measure skill development
 - Track weekly and monthly goals
 - Identify high-performing employees
 - Generate workforce intelligence reports
 - Improve employee engagement
 - Support career growth planning
-

3. User Roles

Administrator

Responsibilities:

- Manage platform
 - Manage employees
 - Upload learning modules
 - Create assessments
 - Generate reports
-

Manager

Responsibilities:

- View team performance
- Track employee growth
- Review goals

- Monitor assessments
-

Employee

Responsibilities:

- Watch learning modules
 - Complete assessments
 - Set goals
 - Track progress
 - View performance reports
-

4. Functional Requirements

Module 1: User Authentication

Features:

- Login
- Logout
- Password Reset
- Role-Based Access Control

Roles:

- Admin
 - Manager
 - Employee
-

Module 2: Employee Dashboard

Display:

- Current Skill Score

- Learning Progress
 - Completed Modules
 - Pending Modules
 - Assessment Performance
 - Weekly Goals
 - Monthly Goals
 - Achievement Badges
-

Module 3: Learning Management System

Learning Modules

Admin can upload:

- YouTube Videos
- PDF Documents
- PPT Files
- Internal Training Content

Module Information

- Module Title
- Category
- Domain
- Duration
- Difficulty Level

Domains:

- Full Stack Development
 - Data Science
 - Data Analytics
 - Cybersecurity
 - Cloud Computing
 - Machine Learning
 - Soft Skills
-

Module 4: Learning Progress Tracking

Track:

- Videos Started
- Videos Completed
- Watch Percentage
- Total Learning Hours
- Last Activity

Metrics

Example:

Employee:

John Doe

Modules Assigned: 20

Completed: 15

Completion Rate: 75%

Learning Hours: 42 Hours

Module 5: Assessment Management

Admin can:

- Create Assessments
- Assign Assessments
- Schedule Assessments

Assessment Types:

- MCQ
 - Coding Test
 - Practical Assignment
 - Project Review
-

Module 6: Assessment Analytics

Track:

- Assessment Attempts
- Scores
- Time Taken
- Pass Percentage

Reattempt Analysis

Example:

Assessment 1

Attempt 1: 55%

Attempt 2: 72%

Attempt 3: 85%

Improvement: +30%

Module 7: Goal Management

Employees can create:

Weekly Goals

Examples:

- Complete Python Module
- Build Login System
- Finish AWS Assignment

Monthly Goals

Examples:

- Complete Full Stack Track
- Earn AWS Certification

- Improve SQL Skills
-

Module 8: Goal Progress Tracking

Track:

- Goals Created
- Goals Completed
- Goals Missed
- Goal Achievement Rate

Example

Weekly Goals:

5

Completed:

4

Achievement Rate:

80%

Module 9: Skill Matrix

Maintain employee skills.

Example:

Skill	Level
Python	Advanced
AWS	Intermediate
SQL	Advanced

Cybersecurity Beginner

Levels:

- Beginner
 - Intermediate
 - Advanced
 - Expert
-

Module 10: Workforce Intelligence Dashboard

Display:

Learning Analytics

- Total Learning Hours
- Most Popular Modules
- Module Completion Rates

Performance Analytics

- Average Assessment Score
- Skill Growth Trends
- Top Learners

Goal Analytics

- Goal Completion Rate
 - Team Productivity Score
-

Module 11: Employee Performance Score

Calculate:

Employee Growth Score

Based On:

- Module Completion
- Assessment Scores
- Goal Achievement
- Learning Consistency
- Project Participation

Example

John Doe

Learning Score: 85

Assessment Score: 90

Goal Score: 75

Overall Workforce Score: 84

Module 12: Leaderboard System

Display:

- Top Learners
- Highest Assessment Scores
- Most Improved Employees
- Goal Champions

Time Filters:

- Weekly
 - Monthly
 - Quarterly
-

Module 13: Achievement & Badge System

Badges:

- Learning Champion
 - Assessment Master
 - Goal Achiever
 - Skill Builder
 - Consistency Award
-

Module 14: Reporting System

Generate:

Employee Reports

- Learning Progress
- Assessment Results
- Skill Development

Team Reports

- Team Performance
- Team Learning Progress

Organization Reports

- Workforce Readiness
- Skill Distribution
- Growth Trends

Export:

- PDF
 - Excel
 - CSV
-

Module 15: Notifications

Notify Employees For:

- New Modules

- Upcoming Assessments
- Goal Deadlines
- Achievement Badges

Channels:

- Email
 - Dashboard Notifications
-

5. Non-Functional Requirements

Performance:

- Dashboard Load Time < 3 Seconds
- Assessment Submission < 2 Seconds

Security:

- Password Hashing
- Role-Based Access
- Secure File Storage

Scalability:

- 5,000 Employees
- 50,000 Assessments
- 100,000 Learning Records

Availability:

- 99% Uptime
-

6. Technology Stack

Frontend:

- HTML
- CSS
- Bootstrap

- JavaScript
- Chart.js

Backend:

- Python Flask

Database:

- MySQL

Analytics:

- Pandas
- NumPy

Reporting:

- OpenPyXL
- ReportLab

Storage:

- AWS S3
-

7. Future Enhancements

- AI Skill Gap Analysis
 - AI Career Recommendations
 - AI Learning Path Generator
 - Workforce Readiness Prediction
 - Employee Promotion Readiness Score
 - Resume Builder
 - Certification Verification
 - AI Mentor Chatbot
-

8. Expected Outcome

WorkforceIQ™ will provide a centralized employee growth and performance management platform that enables organizations to monitor workforce learning, skill development, assessments, goal achievement, and employee progress. The platform will help management make informed workforce decisions while motivating employees to continuously improve their skills and performance.
